SEQBUILDERS

Information

Who are we? Information and processes to get your project off the ground

SEQBUILDERS

Meet the Team

SEQ Builders are very experienced in all aspects of building and can assist you with your project.

So what makes us different to the rest? - SEQ do not employ salesmen! Your design consultation is with an experienced tradesman who can confidently inform you of regulations, product capabilities and labour estimates. We use that knowledge to work with you to create a design that gives you the most for your money.

Already have plans drawn? - We are happy to quote what has been designed and make recommendations if required.

Leonard, a Director of SEQ Builders, is one of the nicest guys in the industry; design and renovation is not just a job but a passion for him. He is constantly pushing the boundaries and is happy to take on any challenge no matter the complexity.

James, the other half of SEQ Builders, is personable, approachable and has endless ideas on how you can improve your home. He has a keen eye for detail and the ability to create something from nothing. He finds solutions to the toughest of problems

The Process

Site Visit – On the initial consultation, we factor in your budget, will listen to your ideas as well as offer our own, we take required measurements, photos, videos and will work with you to produce a scope of works for your project.

Quote – Upon confirmation of the scope, we have our estimators work out the costings for the project. Usually we get the quote back within 1-2 weeks of the site visit.

Quote Review – When the quote has been received and reviewed by you, our team will be on hand via email, phone or even an extra site visit to answer any queries you may have.

Quote Acceptance – Upon accepting the quote you will receive a contract and a potential start date for your works. We will develop a project timeline for you to plan life around a renovation.

“A very good pair with a great team behind them. Great at consulting, communicating and had a lovely, respectful team on the job at our place

Well done James and Lenny.”

Insurance/Approval – Once deposits have been paid we will organise QBCC insurance and get a start date locked in. If council approval is required allow anywhere from 2-6 weeks before a start date can be given.

Construction – This is the fun part, you get to meet our skilled team and trades, we will keep you informed of progress and advise of important dates where you may need to liaise with different trades to discuss finer details of the project.

Sign Off - We love to meet with clients at the completion of all projects, we take some finished photos and listen to feedback from your experience. A lot of the time our clients get the renovating bug and have us scoping out for their next project.
